- US citizen
- Completed residency prior to service
- Be between the ages of 21 and 42; waivers granted on a case-by-case basis

Army Reserves (Part Time)

- US citizen or legal resident
- Completed residency prior to service
- Be between the ages of 21 and 42; waivers granted on a case-by-case basis

PROGRAM HIGHLIGHT (Regular Army) Financial Assistance Program

The U.S. Army's Financial Assistance Program (FAP) is designed for physicians in PGY2 and above (who have passed all 3 steps of the USMLE/COMLEX on their first attempt). Once accepted, you will receive a monthly stipend of **\$2,466** in addition to qualifying for up to **\$120k** of student loan repayment.

The FAP program incurs a minimum **2** year service obligation on Active Duty upon completing residency.

PROGRAM HIGHLIGHT (Army Reserve) Specialized Training Assistance Program

The U.S. Army's Specialized Training Assistance Program (STRAP) is designed for physicians currently enrolled at any stage of an accredited residency program. Once accepted, you will receive a monthly stipend of **\$2,466** in addition to qualifying for up to **\$250k** of student loan repayment.

Once you have finished your residency program, you'll train as part of an Army Reserve unit in your area of choice and serve when needed while maintaining your civilian career.

Contact your local Army Medical Recruiting office to discuss the requirements of becoming an Emergency Medicine Physician in the U.S. Army.
