BE PART OF SOMETHING BIGGER

Joining the Army Medical Corps means working with the world's most elite specialists, who are leading innovation and pushing the boundaries of medicine with the continued support of research and development funding. We offer more than 90 professional health care career paths.

As an Army physician, your contribution is vital to our mission.

AT THE FOREFRONT OF MEDICINE

The U.S. Army has been named one of the world's most innovative organizations. In just three years, we earned over 300 patents in science, technology and medicine. Currently, Army doctors are in Phase III trials for HIV and breast cancer vaccines.

As an Army physician, you'll explore and pioneer ways that make a big impact.

CUTTING-EDGE TECHNOLOGY

From spray-on skin to operating room robotics, U.S. Army medical professionals develop technologies and tools that reduce recovery times and increase quality of life for patients. Our medical facilities are some of the most advanced in the world, and our doctors are among the first to use new, life-saving medical technology.

Be part of this elite team and practice on the cutting edge.

CONTINUED GROWTH AND OPPORTUNITY

As part of the U.S. Army or Army Reserve health care team, you will be connected to one of the world's largest, most funded and high-tech health care networks in the world.

Army medicine provides once-in-a-lifetime opportunities to lead, grow your career and become a triple-threat health care provider as you practice medicine, innovate and teach.

PRACTICE

With over 90 professional health care career paths, you can practice in your preferred area of medicine with continued support from our team of world-class medical professionals.

U.S. Army doctors practice without various operational concerns found in the private sector.

So you can focus on what matters most: your patient's health.

INNOVATE

Perfect your specialty and push the boundaries of your field with the support of a team focused on research, development and collaboration.

The Army gives you access to top medical minds around the world to pioneer new medical techniques and breakthroughs.

This is your opportunity to evolve the field of medicine.

EDUCATE

As an Army physician, you'll have the opportunity to expand your knowledge through continued education.

You'll also have the chance to impart your wisdom by teaching colleagues and incoming professionals.

So you'll be able to share your expertise and learn new skills without the financial burden.
